Deutsch

One advantage of dying broke, is that you ~~freed up~~ you didn't ^{knowing} ~~leave~~ any stagnant pools of Karma locked up.

Perhaps if there was ~~not~~ no storage, there'd be no bad Karma. Every person would be living for today.

The opposite of living for the day is - what your day it, you're not living for the moment is - something "more important" you're living for storage.

Construct permeability in such a way that it is an exercise which encourages one to think in terms of maximizing their ~~past~~ Karma. some wald.

Realistic
Aesthetics

add art to science + pop culture. it could be beautiful. if it ends up being a beautiful thing, you'd want it to be.

Deutsch

$$E \times I = K$$

~~intention~~
~~load~~
~~times~~
~~the~~
~~degrees~~
~~(math)~~
~~points~~

$F_b = 1$ you are ~~not~~ honest
 + (actual (not polite)
 you don't over-react into
 circumstances
 zero gossip-

$F_b = 1$ for a robot
 $F_b = 0$ for a jealous god (over-reacting & all powerful)
 $F_{avg} = 10$

When Feedback = 1
 then we're all
 robots.

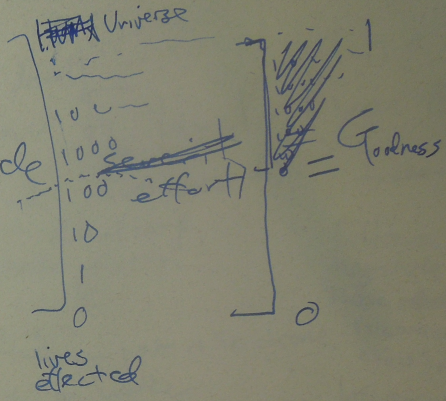

when feedback = jealous
 gods
 then we'd all
 be jealous

Feedback factor

$$K_I \times 10 = K_0$$

Deutsch

logarithmic magnitude

$$I \times E \times M = K_I$$

robot effort magnitude potential effect directly

$$I \times 1 \times M = K_0$$

importance magnitude effect directly

$$\text{if } \frac{K_I}{K_0} = 1 \text{ then } K = 1$$

when $K = 1$ for sufficient periods
 then Karma is proven.

The closer to 0 K is the less evidence for Karma.
 +0 = 1 K is the antikerma of hell. of K_I

what is the single unit of measure of K_0

-1 $K_I = 1 K_0 = \text{A Slap in the face} =$

when does ~~$I \times E \times 1 = 1$~~ $I_0 \times 1 \times 10 =$

$= +1$
 $= -1$
 $= +1$
 $= -1$

only people who have set a default F_b have the option to ~~set~~ an action-specific F_b .
(to ~~set~~ only they order stand it.)

default
Set your F_b level.

(or set your E_{go} + Influence separately)

- 10 I am a jealous god (influence = ∞)
- 9 I am a CEO of a multinational corp
- 8 I am a head of ~~state~~ church
- 7 I am a head of state
- 6 I am an entertainer
- 5 I am a drone I am a SR drone
- 4 I am a construction worker
- 3 I am a farmer
- 2 I am a lumberjack
- 1 I am a robot hermit (robot E_{go} = 0)
- 0 I am a robot hermit (robot E_{go} = 0)

Influence is not Magnitude. May is those ~~of~~ ~~one~~ is concerns of effect.

Influence is the extent to which they effect things beyond which they are considered day to day)

Your own personal feedback factor F_b is a function of your influence and your E_{go} .

$$E_{go} \times \text{Influence} = F_b$$

So if your E_{go} = 1, then your F_b = the number of people you are in contact with ~~on~~ ~~the~~ ~~day~~ during the event in question.

~~Journal~~ FAQ

① What if I only record the good stuff I do and ~~keep~~ don't ~~the~~ tell about the bad stuff?

perhaps you will begin to be more conscious of both your ~~the~~ good ~~things~~ + bad actions

- (A) Well, there are sure to be many folks who only record the bad stuff too. It'll all work out.

The important thing is to get data. We can ~~not~~ determine it later - to see gross what's getting underrepresented.

② What if I only write down the bad stuff that happens to me? It seems like ~~me~~ I often don't even notice when something good happens!

(A) [same as above
["
["

Field of record

- o health
- o relationship
- o financial

③ Is this serious? Are you a scientist?

study of prayer going on at harvard

KarmaLab

We can settle this. We just need your data.
We will figure this out once and for all.
An impossible experiment, which just might work.
It's easy. Just stay out of the red.
You tell the truth. We'll crunch the numbers.
What's due unto others.
Hoping K=1.
Pushing the boundaries of science.
Suggestions welcome.

How's the karma looking for ?

Report bad data

example actions:

- giving money
- giving time
- helping a stranger
- smiling at someone
- saying thank you
- being honest
- apologising

example events:

- it rained

- i was insulted
- i saw someone get insulted
- im going blind
- i got a raise
- i stubbed my toe
- i got ripped off
-

Input a bad action

You put negative karma into the system.

... happens all the time. We, Karmalabs Inc. as well as all humanity, appreciate you providing us with this important data.

Now, for the purposes of this study, we ask you to quantify the deed. It's important to explore how to report your deed with great scientific accuracy. Remember how small or big it may have been. This is a serious scientific experiment, and the better the data, the more reliable the results.

Who are you?

Describe your bad deed if you like. (This is your chance to explain the circumstances and try to talk your way out of it.)

Now that you have used the above opportunity to put things in your own words, please be completely accurate in your quantified response to the following two most important questions. Thank you.

Rate your intention

1. I was not
2. I would have just killed them!
3. I was a selfish young punk of shit.
4. I wouldn't stop it. They probably deserved it.
5. Well, that was just poor judgement.
6. I didn't really mean it!
7. It was a hard mission.

Rate your intention

1. What was your attitude?
2. Did you really mean to do it?
3. Were you consciously trying to do something bad, or did it just make sense to you?
4. How much harm would it cause you or your loved ones?
5. How much excitement did it give you?
6. How much would you be proud to brag about it?
7. How much would you regret it?

Rate your effort

1. How hard did you try?
2. How much physically strenuous effort was required? How much of a sacrifice was it?
3. Did you get any killing practice out of it?
4. Did you feel bad about it?

15 / 2000 ... it to be.

Input a bad action

You did something bad. You put negative karma into the system.

That's too bad, but it happens all the time. We, Karmalabs Inc, as well as all humanity, appreciate you coming here to enter this important data.

Now, for the purposes of this study, we ask you to quantify the deed. It's important to implore you to report your deed with strict scientific accuracy, nomatter how small or big it may have been. This is a serious scientific experiment, and the better the data, the more reliable the results.

Who are you?

Describe your bad deed if you like (This is your chance to explain the circumstances and try to talk your way out of it.):

Now that you have used the above opportunity to put things in your own words, please be completely accurate in your quantified response to the following two most important questions. Thank you.
